Overview

Designed for enterprises in a fast-paced environment, the HP Scanjet N9120 Document Flatbed Scanner delivers rapid and highly reliable scanning from an A3 document scanner. The HP Scanjet N9120 is designed to easily integrate into enterprise environments that use document management systems – from the very simple to very complex. The scanner features an integrated ink imprinter, HP Smart Document Scan Software, a premier capture software tool that makes it simple to scan in documents, and Kofax Virtual ReScan Professional, making this the ideal device for users looking to enhance productivity, efficiency, document handling and reliability.

The HP Scanjet N9120 Document Flatbed Scanner is a productive machine that quickly captures documents in black-and white, grayscale and color. A 200-page Automatic Document Feeder, ultrasonic double-feed detection, black and white switchable ADF backgrounds, and quick-start buttons ensure fast and efficient results for all scanning needs.

With customizable scan settings and a wide range of document scanning capabilities from A6 to A3 (US check to ledger), the versatile HP Scanjet N9120 Document Flatbed Scanner is sophisticated enough for IT management but is simply designed for knowledge workers.

Key features and benefits

- Perform rapid duplex sheet-feed scanning at speeds[1] as fast as 50 pages per minute (ppm) and 100 images per minute (ipm) in black-and-white, grayscale and color at 200 dpi

- HP Scanjet N9120 Document Flatbed Scanner will support HP Web Jetadmin,[2] which allows for tracking information and status of unit, while gathering device information, counter information, obtaining device status and error codes

- Scan up to 5,000 pages a day with the efficient HP Scanjet N9120 Document Flatbed Scanner, which features ultrasonic double feed detection and a 200-page automatic document feeder

- With the latest version of HP Smart Document Scan Software, launch customized scan profiles at the touch of a button on the scanner

- The integrated ink imprinter[3] allows for customization by printing a page number, character string or distinguishable mark on the back of scanned hard-copy pages and supports date, time, document count and custom messages up to 40 characters

- Save time by eliminating the need to manually rotate hard-copy pages with hardware page rotation. Hardware page rotation is built in the scanner making the rotation process faster and more efficient

- Ultrasonic double-feed detection detects when more than one hard-copy page is pulled into the paper path and notifies users to readjust the pages, ensuring that every page of a large document is scanned

- Enhance images with Kofax Virtual ReScan Professional (VRS) technology, which provides for clear, readable text, automatically adjusts the color and contrast of scanned images and saves images with smaller file sizes

- Seamlessly integrate the HP Scanjet N9120 Document Flatbed Scanner into existing systems with ISIS® and TWAIN drivers. The HP Scanjet N9120 scanner will support a broad range of centralized and distributed document capture applications and vertical markets, and in many cases are plug-and-play simple to fit present technology environments. Certified solutions for this scanner and other HP Scanjet document scanners are available at www.hp.com/go/gsc.

- Reduce start-up time with Instant Lamp-On Scanning Technology

- On-board JPEG compression allows for fast scanning with less reliance on the performance of a PC

- Reduce time and enjoy the convenient quick start buttons that allow for quick startup and speed up total processing time.

- Convert scans into text that can easily be edited using the included IRIS Readiris™ Pro OCR software

- Benefit from convenient switch-able black & white background. The black improves image quality and ability for applications to detect page edges, while white helps avoid showing the ADF background on the page edge in file

- Rely on exceptional commercial service and support with one year on-site repair warranty

Pricing
- HP Scanjet N9120 Document Flatbed Scanner: $3,999[4]

Availability[5]
Expected to be available for purchase worldwide in July.

[1] Speeds attained by using 200 dpi monochrome, grayscale or color modes with letter/A4 paper in landscape mode using hardware compression.
[2] Web Jetadmin support available for the HP N9120 in late 2008.
[3] Requires an HP ink cartridge. Not included, sold separately.
[4] Estimated U.S. street price. Actual price may vary.
[5] Availability may vary by region.
